THE CARE IS IN
the craft, the flavor
IS IN THE DETAILS

NADALIÉ
USA

**NADALIÉ TANKS & CASKS
COMBINE TRADITION WITH
LEADING-EDGE TECHNOLOGY**

From our tank production facility located in Oriolles, France, Nadalié has been making the highest quality tanks and casks since 1902. By using techniques handed down from generation to generation of cask makers, we combine our knowledge gained from over 100 years of barrel coopering, along with the latest technology to create a product of exceptional quality and beauty.

**WE ARE DEDICATED TO OUR CRAFT
AND COMMITTED TO OUR CUSTOMER**

Nadalié focuses on sourcing the highest quality raw materials for our products. We only purchase entire trees, meticulously selected for their fiber density and consistent texture from the best French forests. Once the oak has been carefully dried and seasoned in our mill yard, our highly-skilled coopers work diligently to create tanks and casks built to your precise specifications.

CUSTOMIZED SPECIFICALLY FOR YOUR CELLAR

We offer tanks and casks in a range of sizes to fit your needs. Throughout the planning phase we partner with you on how to best optimize your space, ensuring the equipment we supply is tailored to your cellar.

ACCESSORIES AND FITTINGS

For further customization, we are proud to offer an array of accessories and fittings of the highest quality.

Please contact your sales representative for further details.

CASK

TANK

STAVE THICKNESS 50MM

STAVE TREATMENT

Traditional toasting methods are gently and patiently applied over a prolonged period, then hoops are hammered into place by hand. This meticulous attention to detail results in quality products that you can rely on vintage after vintage.

TANK DIMENSIONS / CAPACITY

Hectoliters	Height	Bottom	Top
10	115	125	115
20	150	177	147
50	196	217	186
80	223	256	220
100	240	220	240

CASK DIMENSIONS / CAPACITY

Hectoliters	Length	Bilge	Head
10	130	130	110
20	140	170	156
50	170	237	219
